#### BOLSHEVIKI MAKE GAPS IN RUSSIA

(By Associated Press)  
PARIS, June 11. (Wednesday).—The reply of Bela Kun, Hungarian soviet government foreign minister to demands that he be invited to the peace conference was denied, officially.

Clemenceau's statement that he not be invited to confer if he did not cease fighting had been twisted into an invitation to Paris.

Reverses of Admiral Kolchak's troops in southern Russia has caused uneasiness in official circles. The reverses were reported since Bela Kun's success against the Czechoslovaks is being viewed with special concern. The strengthening of the Bolshevik hold in Moscow by intervention of the Estonian advance against Petrograd is also a source of uneasiness. The Bolshevik peril in the east is commanding attention here.

#### TWO STEAMERS GO TO BOTTOM

(By Associated Press)  
NEW YORK, June 12.—The steamship Yankee, operated by the United States shipping board, sank off Fire Island last night when she collided with the Italian steamship Argentina bound for New York.

LONDON, June 12.—A communist government will be proclaimed in Austria Sunday. It is predicted that the new order will be successful in immediately accessing information received to government circles. Information indicates that 40 per cent of the Austrian army is Bolshevik. It is expected that the communists will quickly ally themselves with the Hungarian communists.

#### SENATE AGAINST HELPING EUROPE

(By Associated Press)  
WASHINGTON, June 12.—Senator Knox's resolution to put the senate on record against supplying the league of nations was reported favorably in amended form today. The foreign relations committee eliminated the section declaring it the policy of the United States to cooperate to remove the menace whenever the peace of Europe is threatened again.

#### GOING TO HUNT THE MARSUPIAL

Robert M. Kidd will leave tonight for his annual pilgrimage to the shrine of his nativity in New Zealand where he goes to indulge in the pastime of chasing the festive kangaroo across the ancestral estates. It is not generally known that the well-known metallurgist is one of the greatest hunters of the antipodes whose natural inclinations for the outdoor life have been cupied by his devotion to mining.

#### BARRIER GOES AFTER TWO ALLEGED CROOKS

Sheriff Jack Barrier left last night for San Francisco where he goes with a warrant for the arrest of Steve Grogoff and Slim Coville on the charge of having swindled Nick Petrovich out of \$13,000 at a game of cards. The sheriff will see the men who are detained by the police and, if they refuse to return, will decide if the evidence justifies a requisition on the Governor of California which would be an expensive proceeding.

#### SOCIALISTS WILL STICK TO OFFICE

(By Associated Press)  
WEIMAR, (Wednesday), June 11.—"We are still in office. We will stick. It is our duty to save the German people." This declaration was made by Gustave Noske, minister of defense at a meeting of the Majority Socialist party.

Residents believe he will not attempt an attack before night unless the federals evacuate.

Everyone in the city is moving to safe quarters.

#### PRAISES WORK ON A WASHOUT

M. B. Cutter came up to Tonopah this morning after having spent yesterday inspecting the washed out tracks in the vicinity of Tonopah Junction where traffic was suspended two weeks ago. Mr. Cutter, in commenting on the appearance of the right of way as it looked today stated that it would take at least a month to place the tracks and roadbed back in normal condition. He said he cannot understand how Vice-President Forster and his men succeeded in getting a train over the break in less than four full days and complimented them highly on their energy in restoring service into Tonopah.

#### WEST END HAS A LEASE ON THE BUTLER

By virtue of the settlement of the Jim Butler apex suit the West End has been granted a lease on a large tract of Jim Butler ground in the Sunset and Eureka claims, from which it is allowed to extract ores and mill the same. The entire profit goes to this company until the sum of \$23,000 has been reached, after which the net profits are split 50-50. This is an extremely advantageous contract for the West End inasmuch as it adds two additional claims in which it can work and settles without further litigation expense, the final contention between the two companies. There is considerable ore in sight of good value in these two claims. The agreement to this effect has been filed with the county recorder.

#### NO DISRUPTION OF BUSINESS REPORTED BY LARGER CITIES

#### LEASE TAKEN ON THE HENNESSY FOR LONG TIME

Forrest Caldwell associated with Zeb Kendall and Herb Humphrey have taken a lease on the Hennessy with an option on a block of stock at a price fixed by a contract that was closed last Monday. The lease is on the Elberta claim and runs for a long time. This is the reason assigned for the advance and strength shown by the Hennessy today when it sold 23 to 28 in face of a depressed market and closed strong at 26. Otherwise the market was devoid of feature. The total sales represented a turnover of 600,000 shares with the following leaders:

Mr. P. H. O'Neil, the cattle king of Faulkton, S. D., who is spending some time watching developments on the Divide, was very much gratified this morning to receive word that his son, J. T. O'Neil had been chosen as one of the two representatives from the American army to play in the big rugby game which was to be pulled off at Coblenz. Mr. O'Neil was a front rank forward player in Santa Clara and it is remarkable that the second man chosen for the Coblenz team should be J. P. Fitzgerald, also from Santa Clara. This team is known as the English team against a team composed of Italy, France and New Zealand. Another son, Ignatius, has arrived at the home ranch at Faulkton, S. D., from the Great Lakes naval training station where he had been suffering from a serious attack of black diphtheria. A third son is on his way home from overseas.

#### DEAR RED PAINT USED MAY DAY

BUCHARIST, Austria, June 12.—The cost of "painting the city red" for the May day celebrations was at first estimated at 12,000,000 crowns, but today the supplementary information is forthcoming that the red paint used in such profusion was only paper, "war cloth" which proved a failure for other purposes. So it was used red and hung up as it came cheaper than paint.

Peasantry activity is going on in converts to communism by stirring up trouble in Rumania through revolutionary agents who handle enormous sums of money; but also within the country wild efforts are being made to secure adherents. Printing presses are working overtime turning out Bolshevik posters of the weirdest kind. Of course they use capital letters and call upon all to become "vovos" or red soldiers.

All bare walls including church fronts, are plastered over with the declaration "Nem Nem Soha" (No, no never) which is the slogan for the refusal to abandon the national soil to the Rumanian and the Czech.

The press bureau is also active in sending out reports signed with the names of foreign correspondents to forged articles, or else it rewrites any copy submitted for censorship. Much ingenuity is shown in several new Bolshevik magazines illustrated with comic pictures and jokes of the proletariat at the expense of the hated bourgeoisie. One magazine which bears the name of the month in which it appears shows a fat landlord, or rather an ex-landlord, commencing with a snail.

"Ah, lucky beast!" he snarls, "thou hast still gotten thy house on thy back!"

The magazine even dares to caricature little Bela Kun with his thick overhanging lips, sometimes likened to a bulldog.

The result of such propaganda is questionable, judged by the actions of three communists with whom The Associated Press correspondent rode in a train. They lolled in their comfortable seats, while a humble woman, with a newborn baby in her arms, stood in the corridor for fully six hours. These three men were all (Continued on page 6)
